Dear Sir,

Sub: Detailed Engineering of Heat Exchangers and Pressure Vessels.

This is to state that M/s Denfab have carried out detailed engineering of Heat Exchangers and pressure vessels as our sub-contractor for various projects in the years 2010 - 2012.

The equipment were to be designed as per international codes viz. ASME Section VIII Div. 1, TEMA and other project specifications. The scope of work included mechanical design, development of mechanical datasheets and review of documents from equipment fabricators.

We appreciate the sincere efforts put in by team of M/s Denfab to ensure error free and timely submission of the deliverables during the course of project.

We look forward towards their association for future projects.

With Regards,

Yours faithfully,

Mr. T. N. Ramakrishnan,
Joint General Manager,
Equipment and Thermal Systems Engineering,
L & T Engineering Mumbai
